## Description

This grease is designed as a high temperature resistant food grade grease, containing PTFE anti-wear and other additives. SYNTECH FOOD HTS 2 is suitable for all plain and anti-friction bearings as well as sliding surfaces. Resistant to a wide range of chemical cleaning solutions used in the food and drink industries. SYNTECH FOOD HTS 2 is formulated for applications where $\mathrm{MOSH}, \mathrm{POSH}$ and MOAH are prohibited.

## Outstanding Features

- Provides long term lubrication at high temperatures, extending lubrication intervals
- Reduced formation of carbon deposits often associated with many high temperature grease
- Good sealing properties protect against the ingress of corrosive contaminants
- PTFE solid lubricant improves anti-wear performance prolonging component life
- Compatible with most types of rubber seals

## Directions of Use

SYNTECH FOOD HTS 2 can be applied by hand, or by using a standard grease gun (400gm cartridges are available), or via a central lubricating system capable of pumping an NLGI No. 2 grease.
As with all greases used for the first time, check compatibility with the grease applied previously and if necessary purge bearings prior to application. Likewise, as a general rule, take care not to over-lubricate and apply the quantity of grease recommended by the bearing manufacturer.

## Technical Data

| Appearance | - | White semi-translucent grease |
| :--- | :--- | :--- |
| NLGI Classification | - | 2 |
| Thickener | - | Inorganic Thickner |
| Drop point (IP 132) | - | None |
| Base oil | - | High viscosity silicone oil |
| Solid lubricant | - | PTFE |
| Copper corrosion (IP112) | - | Pass |
| Water washout (ASTM D1264) @ 38 ${ }^{\circ} \mathrm{C}$ | - | $<2 \%$ max. |
| Dynamic corrosion resistance (EMCOR) (IP 220) | - | 180 kg |
| Shell Four Ball (IP239) Weld load | - | 30 kg |
|  |  |  |
| MN factor | - | 200,000 |
| Operating temperature range Hertz Load | - | $-20{ }^{\circ} \mathrm{C}$ to $+220^{\circ} \mathrm{C}$ |
